Supreme Court Taps AI for Speed, Not Sentencing

Sheikh Rayees • March 21, 2025

PUBLISHED REPORT

The Supreme Court of India is letting Artificial Intelligence lend a hand—but only to carry files, not to bang the gavel. In a recent update from the Union Law Ministry, it was clarified that AI and Machine Learning are being used strictly to manage the back-end bustle of the judiciary, not to influence decisions or hand down judgments. The assurance came straight from Law and Justice Minister Arjun Ram Meghwal...
